Welcome to the 12th issue of the **TEXAS HIGH SCHOOL BASEBALL MAGAZINE**. This magazine is a project of the Texas High School Baseball team and is a part of our effort to connect high school baseball coaches, players, parents and fans across the big state of Texas. Our aim is to enhance and heighten the high school experience of every high school baseball fan by unfolding the drama and excitement of each baseball season.

This year, we are converting to an online, digital magazine only. Rising publishing costs have made it difficult to continue publishing a printed magazine. We will spend this year looking at how we might cut costs down and bring the printed version back but we will also use this time to evaluate whether a digital magazine is the best option going forward.

In this digital magazine, we continue to strive to be a resource to help you follow along with the baseball season. With the information provided, you will have a grasp of what to expect from the 2025 season. Our Preseason Top 20 Polls and Preseason Players to Watch sections will give you an idea of who the top teams and top players might be this year. It also sets us up to be surprised by those teams and players who step up and have great seasons but flew under our radar in the off-season. All of this adds to the anticipation and excitement of the baseball season.

While this digital magazine serves as a preseason resource for the upcoming season, our Texas High School Baseball website (www.txhighschool-baseball.com) follows and reports on the season as it is being played. Be sure to join us as we follow and report the story and excitement of the 2025 Texas High School Baseball season. – Tim Baugh

Tim Baugh is Co-Owner of the Texas High School Baseball Website and the Texas High School Baseball Online Magazine. He will be the 6A/4A Coordinator for 2025. Tim lives in Midland where he is an Associate Minister at the Fairmont Park Church of Christ. His wife Dena is a Kindergarten teacher at Midland Greenwood. They have three grown children, Laura Anastasio, Eric Baugh and Breann Gwinn, all graduates of Greenwood. They have six grandchildren from ages 1-15. Tim coached his son's Little League and Senior League baseball teams for 10 years and served on the Little League and Senior League Boards. He was President of the Greenwood Baseball Booster Club in 2008. He created and ran the 3ABASEBALL.COM website from 2007-2012.

Brandon Brunson is in his 9th year as Private School Coordinator. He works for Smith Industries as a Sales Project Manager. His wife, DeEtte, teaches JH/HS Bible, English, and Financial Planning at Midland Christian School. The Brunsons have three sons-Brett, Bryan and Blaine (all were athletes at Midland Christian School) and one grandson, Barrett (with another grandson due near state tournament time!). A former coach (six-man football and boy's basketball), he now spends time behind the microphone as a broadcaster. Brandon has broadcast the state tournament for TAPPS TV and Radio since 2019. His other broadcast duties include Midland Christian (football, basketball, baseball) and Midland College (basketball and baseball). Brandon leads men's retreats for The Crucible Project and also serves as an elder at the Golf Course Road Church of Christ.

Josh Pratt is Co-Owner and 3A/5A Coordinator for THSB. Josh resides in Cameron, and is a 2013 graduate of the University of Mary Hardin-Baylor. Josh works full time as a banker and real estate investor, and was previously the sports editor for his hometown paper from 2015 until 2018. Josh is the owner of Pratt Sports, where he specialized in senior sports portraits and graphics. Josh is a lifelong member of Sts. Cyril and Methodius Catholic Church in Marak, where he served on the finance council from 2017-2023. In 2023, Josh was honored to become a member of the Cameron Chamber of Commerce board, and also sits on the Cameron ISD Scholarship Foundation. This is Josh's 13th year with THSB.

Interview

Describe what's it been like playing for Pearland and going to the state tournament championship game two years in a row?

I've been very blessed to be able to compete with a great group of guys. Not every high school has the phenomenal talent we have had at Pearland. So being able to go up since my freshman year and play with these guys has been very fortunate for me. We had a lot of studs last year, the year before and now this year. So the best I could say is I'm very thankful for it.

So you guys graduated a lot last year. What's going to be the challenges for the Pearland team this year?

I think the biggest challenges is just to keep going. The last two years we go to the state tournament and get to that last game and kind of just shut down. So it's definitely an achievable challenge where we can overcome that. Especially with the friendships we've built and the family we've created. So the biggest challenge to me is just to finish. And I believe it's very possible for us to do it.

What do you like about this year's team?

What I like about this year's team, like the other years, is just the friendships we have. I mean, there's never a dull moment with the team. We're outside, hanging out with each other, outside of baseball, in baseball. We're having as much fun as we can, which I really think builds a better and stronger team. So I think the chemistry is one of my favorite things about it.

Your high school career on the mound is 18-0. How aware are you of that?

I don't think about it too much. Me and my catcher, Cade Adams, talk about it sometimes, like as a joke. But I don't think about it too much. It doesn't really add any pressure, I will continue just going out there and believing that my stuff can get the job done. And it is also the trust I have that my teammates can get the job done on the offensive side.

Why Texas A&M?

Well, the whole coaching change was really hectic. I followed along with it. But when I saw Coach Earley come back, and I saw all the guys around him support him, and hearing guys say "that's the guy you want." It just drew me that way. I believe he's going to make you into the best possible baseball player you can be. And also, like how I said about the high school friendships and the chemistry we've built, A&M has such a phenomenal family atmosphere and that's something I definitely want to be a part of.

Interview

Cinco Ranch has been 19-6A Co-Champions two years in a row. What has been the key to the team's success?

Definitely our team chemistry. Our captains played a big role in picking up the younger guys. Even the bench players are always picking us up when we're struggling. The team chemistry is big and then knowing your team always has your back have been the big factors the past two years.

Cinco Ranch graduated a core group last year. What do you think is going to be the challenges for you guys in 2025?

I think this year the challenge is definitely our varsity experience. We have three starters that are returning, I think. So there will be a whole bunch of new people on the team. We will need to get that experience in the early stages of the season, like the scrimmages and the tournament games. We will need to get ready when it comes time for district.

19-6A is a tough district. What is your perspective on how good the district is?

Yeah, you can't take any team lightly. Even the teams who are struggling in district are still good enough that they can come back and bite you. It happened to Taylor last year. Morton Ranch didn't have many wins but they came back and beat them and split the series. And then we've almost lost to Morton Ranch two years in a row, which could have really affected our record and the district championship. But there is definitely four or five really good teams in the district that you have to go after each week and lock in.

You have gone 4 rounds deep and 3 rounds deep in the playoffs the last two years. How is the atmosphere unique for the playoff games?

One you're playing different teams you never played before and may not know much about them. But also the student sections are loud and there are more fans at the games. And the competition gets tougher each week. And we get to play in great ballparks. Last year we got to play on Constellation Field where the Space Cowboys play. It just kind of put it into perspective that it is a bigger stage now. But it's definitely way more fun in the playoffs.

You played the third base the last two years. Talk about the move from third base to shortstop this year. How are you feeling about that?

It is pretty natural actually. I've played shortstop more than I've played 3rd base. So it was more of an adjustment going to third base the last couple of years. At third, it's hit hard at you so you have to just wait and trust your hands. I've had to make a couple adjustments moving back to shortstop – making throws, working on the footwork, trying to get to every ball. But it hasn't been too much of a struggle moving back. It has been pretty comfortable for me.

Why TCU?

The coaching staff. Saarloss. DiLaura. And Mosiello is back now. All those guys are really good. Their strength program with Coach Zach Dechant is a big thing for me. They are really good with player development, especially for a skinny kid like me. TCU is great spot for me to go to put on weight and to develop. And I love the culture that they build with the players. The campus is really small, which I love. It's not a big campus. I don't even think there's more than 10,000 students there but that's what I love about it.

What do you like about this year's Lutheran South team?

I feel like there's a lot of chemistry and we have kids that care. We have mostly seniors, so it's kids that are always hanging out. We know each other more on a personal level. I feel like that's going to be good this year for our team.

What do you think will be the challenges for Lutheran South?

Hmmm. Probably having younger guys on the team and trying to pass down information and stuff to them. And probably just staying as a unit this year is going to be a big key.

How has the move to private school been for you?

It's different, the school is a lot smaller, a lot more laid back. Public school was a little hectic sometimes and there were a lot of things going on. But I feel like at a private school, there's more kids that care about what they're doing in the class and I feel like it's just a better environment for me to be in.

How do you feel about Lutheran South's chances of getting to the state tournament?

I don't want to jinx us, but they're high. They're very high. We have a really good team where kids care for one another so hopefully we can take that a long way this year.

Interview

We dubbed 26-6A as the toughest district in 6A. Talk about playing in that district.

Well, it was fun. I think it was a good experience for our entire team. I think that we fought really well in our district, and I think it does nothing but make us better and prepares us for the end of the season to face the gauntlet that we have in playoffs.

What do you like about this year's team?

I like our bats, just like last year. We have a lot of returning bats, and I think that this team can really do some damage at the plate. And early in the game, I can see us striking first in a lot of games and putting some teams away.

How good can this Dripping Springs team be?

With the people that we have on this squad this year, I think the sky's the limit. I think the chemistry is the best that is I've ever seen. And all the dudes have really bought in to the process. I think that this off season has really been a statement to how dedicated these guys can be.

What's going to be the challenge for Dripping Springs?

We have to stay healthy, just like every other team in the state. We're all looking to keep a full squad throughout the year. We just have to make sure that we don't lose any key components through injury and stuff, because it's a long season, and we have to be able to go full throttle from February to June.

Why Tennessee?

I fell in love the coaching staff. It is a great coaching staff there. I think that they're really committed to developing me how I want to be developed. And they always seem to look out for my best interests, and they look for the interest of my abilities. They really focus on the players and I respect that.

Interview

Prosper has had a good team the last couple of years but have run into Flower Mound early in the playoffs two years in a row. Tell me about that.

It's been tough losing the playoffs but I've had a lot of fun over the past three years. My freshman year, I had fun learning from all the seniors that went on to go play at a high level, like Easton Carmichael, Lucas Davenport, Jacob Devenny. They're all playing Division I baseball right now. It was fun to learn from them my freshman year. And then sophomore and junior year, I got to step up as a leader. It's been a lot of fun, although we have lost to Flower Mound two years in a row. But third time's a charm, so I think we see them again this year.

You came so close to beating Flower Mound both years. They went to state tournament twice. What were the conversations you guys had knowing you were so close to beating the State Champion and State Semifinalist.

Honestly, we were upset. But at the same time we were a little content, just because we weren't supposed to do that well. We were kind of flying under the radar the whole year. We weren't like a super dominant team. We just said during the series 'Why not us?' Because no one had us picked to win that series but we were about as close as you can get to winning a three game series against them.

What do you like about this year's Prosper team?

I like how scrappy we are. We have a couple power bats in our lineup, but other than that, we have a bunch of guys that just are dirt bags and want to go play baseball as hard as they can. So it'll help us out a lot, just because we'll have a speed factor to move guys around. I'm just excited to beat people in the small things of the game. Like playing a big power team and they think they come out and hit home runs but we beat them with bunting and speed and a couple of big hits. I'm excited for the scrappy part of baseball. It's fun to play that way.

What do you think are some of the challenges for your team are this year?

Challenges? Probably that we don't have as much power bats in our lineup as we have in the past. We're not going to have the long ball as much this year as a team. But we will be fine. Just a little different.

You've been a productive hitter for Prosper. What will innings on the mound look like for you in 2025?

I hope that every week I get to throw four innings, and then I'm done because we're up by so much. Ha. That would be ideal. But, honestly, I have no idea what my innings are going to look like this year. But I am probably going to start on the mound for us, and I'm looking forward to that. I've always been in a reliever role. But I've started to develop more into a starting role for pitching. And I'm super excited for that. But hopefully I keep my innings down and my pitch count down. I'd love to go like seven innings with 75 pitches. That'd be ideal. But you know that won't happen every game. Just keeping the innings down, keeping the pitches down. That would be the goal.

I've heard good things about you guys defensively. Talk about that.

I agree 100%. We will be good defensively. The nine guys we have out there on the field could be the most athletic and defensively sound nine in the state. That's what I would say about our defense. We have two guys that are scrappy up the middle that just don't miss the ball. I think everywhere – outfield, infield – we're just going to be very defensively sound.

Why Texas A&M

Coach Earley for sure. Him taking the head coach job. He was my favorite coach out of all of them. And when he took the head coach job it was hard to turn that down. And I like the town of College Station. I like more of a calm, college town vibe, rather than a big city. I'm not a big city guy.

6A SEASON PREVIEW

Tomball had a big 2024 season winning the 6A State Championship with a 41-3 record. It was one of the most dominant performances by a 6A state champion since 2008. Can they do it again? With two big pitchers back, they certainly have a good shot. But who are the teams ready to wrestle the title away from them? And what will it look like with two divisions in 6A during the playoffs and two 6A state champions in 2025?

Region I

Dallas Jesuit (#5) is the top ranked team in Region I. They return almost everyone from a team that went 2 rounds deep in the playoffs last year. They will play in the large school division. **Southlake Carroll (#8)** looks to get back to the State Championship after missing it the last 2 years. They return all their pitching and 6 returning starters after going 3 round deep in 2024. They will likely play in the small school division of 6A. **Prosper (#10)** is loaded with good players again bringing back 7 starters from a Regional Quarterfinalist team. They will likely be in the small school playoff bracket. And, of course, there is **Flower Mound (#16)** who has been the Region I team at Round Rock the past two years, winning it all in 2023. They return 3 starters from last year's State Semifinalist team. They could fall in either division. **Ft. Worth Boswell (#20)** returns 7 starters from a 32-8 Regional Semifinalist team. They would be in the small school division of 6A. Others to watch in this region include **Flower Mound Marcus** and **Hebron**.

Region II

Tomball is the team to beat in 2025. Not only are they the defending state champions, they return their top 2 pitchers and 3 other starters from this team. They will likely play in the small school division of 6A. **Rockwall-Heath (#6)** looks to make another deep run in the playoffs with 8 returning starters from a Regional Semifinal team. They will go big school playoff division even though they have a smaller enrollment than Tomball. **The Woodlands (#14)** return 5 starters from an Area Round team. They could be really good if several young prospect players step up and contribute in a big way. They are the 2nd largest school in 13-6A so they will play in the big school bracket. **Sachse (#18)** returns 10 starters from an Area Round Finalist team and they have big potential to make a good run. They will play in the big school division as well. Other teams to watch from Region II are **Bridgeland, Grand Oaks, Magnolia West and Rockwall**.

Region III

The road to Round Rock may have to go through district 17-6A. Our #3 and #4 ranked teams in the Top 20 come from those districts. **Spring Branch Memorial (#3)** returns 10 starters and almost all their pitching from a Regional Semifinal Team. **Cy-Fair (#4)** returns 7 starters from a Regional Finalist Team that returns most of their pitching as well. Cy-Fair will go big school route while Spring Branch Memorial will have the small school playoff path. Could 17-6A produce two state champions? Others will have their say. **Katy (#9)** returns 6 starters from a Regional Quarterfinal team and, of course, there is **Pearland (#13)** who has been to the state championship game two years in a row. Pearland will go to the large school playoffs and Katy will likely do the same but have a chance to go small school, depending on the other playoff teams in 19-6A. **Ft. Bend Ridge Point (#15)** bring back 5 starters from an Area Finalist team including some really good pitching. **Atascocita** returns 7 starters from Regional Quarterfinalist team. Both **Ridge Point** and **Atasocita** will play in the large school division. Another team to watch in Region III is **Katy Cinco Ranch**.

Region IV

In Region IV, we have been used to hearing names like Reagan and Johnson and Lake Travis and Round Rock. Here is new name for 2025 – Dripping Springs. **Dripping Springs (#2)** is the preseason top ranked team in Region IV. With 9 returning starters, including 2 of the top 10 players in the state, from a 26-win Area Finalist, it makes sense why optimism is high in Dripping Springs. They will be in the small school division of Region IV. **San Antonio Reagan (#7)** will be in the mix again with 7 returning starters from a Regional Semifinal team. They are the top rated team in Region IV in the big school division. **San Antonio O'Connor (#11)** and **San Antonio Johnson (#12)** are two other San Antonio schools with good players coming back from a good team. Johnson lost in the State Championship game last year and return their all-nation player. O'Connor has the 3rd smallest enrollment in 28-6A but the two teams smaller than them might make the playoffs pushing O'Connor to the large school playoffs. Johnson will go the big school route. **Lake Travis (#17)** returns 6 starters and have two good pitchers that could send them on a long run. Lake Travis will be a large school playoff participant. Others to watch in Region IV are **Austin Westlake, Laredo Alexander and Los Fresnos**.

5A COVER PLAYER - JARETT BOSWELL

Interview

You had the game winning hit in the state championship game. I remember it was crazy afterwards. As you reflect on that 6 months later, what are your thoughts about that today.

It's still crazy to think about that. I have people come up to me and ask me about it often. And it's still pretty unreal. It was a big moment. Very exciting. But it was a team win.

And I remember you telling me that you were wanting that opportunity to hit.

(Laughing) Yes. I remember hoping I would get a shot when I was on deck. There was two outs, and I just wanted to be the guy at the plate that inning just to have a chance to do it. And I was confident once I stepped in the box. I remember that.

So you guys lost several big pitchers and graduated a few other players. What do you think is going to be the challenges for Grapevine in 2025

Honestly, I think we have guys to go do it again. I think it's just going to be 'can we perform and be consistent like we were last year.' We had a lot of tough spots in games last year that we just battled through and ended up on top. And I think we have the guys to do it again. We just have to be able to fight through the hard situations.

So what do you like about this team? What are those things that you think could get you back to the state tournament?

I like how close we already are. A lot of the guys that are back, we already have kind of bonded over the tough games from last year. The long season from last year. And everybody kind of has their own ego in a way that they think they should go be the best player they can be. And I think that's a good thing.

Why Odessa College?

I like the coach a lot. One of my high school coaches knows the coach at Odessa, and they're real close. And they both have great things to say about each other. And one of the players that graduated from Grapevine two years ago is at Odessa College right now. And he loves it there. And it just felt like home when I visited. So I'm excited about going there to play baseball.

After beginning the season 22-2 on April 8, the Grapevine Mustangs jumped into the #1 spot of the Diamond Pro top 25 rankings. From that point on, the Mustangs never looked back, winning region I and the state tournament to capture the 2024 5A state championship. We had felt that Grapevine was the most complete baseball team in the state, and they proved it, with great pitching, timely hitting, and excellent defense en route to the schools second state championship. Grapevine lost some key pieces of their 2024 team, but has enough coming back to certainly be a legit contender to get back to Round Rock.

Region I

#2 Argyle is about as consistent as they come. They were our preseason favorite to win the region in 2024, but fell just short to district foe and eventual state champion Grapevine in game 3 of the regional finals. The aforementioned **Grapevine** Mustangs come in at number 5 in our preseason rankings. The defending state champs took some heavy losses on the mound, but do return state championship MVP and THSB 5A Coverboy Jarett Boswell. **#10 Lubbock Cooper** is the most consistent team out of West Texas, and returns 8 starters from a regional finalist finish in 2024. **#11 Colleyville Heritage** is picked to finish 3rd behind Argyle and Grapevine, but this makes it 3 teams in the top 11 coming out of 6-5A - potentially the top district in the state for 2025. **Abilene Wylie (14), Aledo (16), and Arlington Heights (other 10)** make it a total of 7 teams ranked in our top 30.

Region II

#1 Lucas Lovejoy finished their 2024 campaign by playing in the final game of the season at Dell Diamond, falling narrowly to Grapevine, 6-5 in the bottom of the 7th inning. With 6 returning starters, we believe the Leopards are capable of taking it one step further this season by capturing the 5A state championship. **#7 Hallsville** is consistent as they come out of this region, and are once again going to be a major player once May rolls around. **#9 Walnut Grove** is a program that has only been around a few years, but expectations are going to be high for this group that returns everyone from a regional quarterfinalist appearance. Frisco generally has a team in the mix when it is all said and done, and this year we are banking on **#13 Reedy**, with 10 returning starters, to make that push. **Midlothian Heritage (18), Corsicana (19), Highland Park, Lake Belton and Frisco Lone Star** are all ranked in the preseason.

Region III

Magnolia West departs the region for 6A after winning it the past 2 seasons, opening the door for someone new out of region III to earn the trip to Round Rock. **#3 Lake Creek** has been right there as top competition for Magnolia West the past two seasons, and as of now, they are our pick to win it. **#6 Friendswood** may pose the biggest threat, as the Mustangs, with no shortage of talent, are no stranger to Round Rock and deep playoff runs. **Barbers Hill** and Coach David Denny come in at the number 15 slot with 9 starters returning from a 26-win team. **#20 Victoria East** moves over from region IV, and has some really good top end talent on their roster. **A&M Consolidated** may also be a player as they had a fantastic 2024 campaign.

Region IV

#4 Leander Rouse took some bigger hits to graduation, but one thing we know about this team is that they will reload and compete. Coach Krempin has built one of the more consistent programs in the state at Rouse, and the cupboard is far from bare in terms of upcoming talent. After Rouse, we have 3 more teams from region IV ranked inside of our preseason top 20. They all come from 26-5A - **Boerne Champion (8), New Braunfels (12) and Boerne (17)**. This is an insanely deep district, as traditional power Smithson Valley and Alamo Heights, a district champ last season, are also included in what will be an entertaining district to watch week in and week out. **C.C. Ray, C.C. Vets Memorial, Liberty Hill, McAllen Memorial and Smithson Valley** are all in our teams to watch.

Interview

Last year in the playoffs your coach is flipping for one game playoffs. What kind of pressure do you feel when you know your coach is doing that and putting the game on your shoulders?

It's something I've dealt with for the past couple years. Come play off time, we need to keep the runs low. So, I just have to trust my defense and hopefully we get a couple runs across. But it's no big deal,

So you you guys beat Spring Hill in Game 1 and then lost the next two. Talk about being close to getting to the state tournament?

It was heartbreaking in those last two games. We just couldn't get that big hit. We had plenty of opportunities with runners on bases. We just couldn't get it done. And it was heartbreaking seeing them go all the way to state and knowing we could have been there.

What do you like about this year's Hardin-Jefferson team?

I think we're going to have a pretty good offensive team this year. I think we should be able to score some runs a little better than we did last year. And everybody knows each other on this team. Everybody's been around each other the past couple years. We have a pretty good vibe.

What are the challenges for Hardin Jefferson this year?

The challenge will be whether we can play solid defense and have solid pitching throughout the season and the playoffs and let our offense work. If we can do that, I think we can be really good.

Why Oklahoma?

I love the coaches – Head Coach Skip Johnson and the recruiting coordinator, Coach Butler. I love both of them. And OU just felt like home.

There will be no repeat champion in 4A this year as Defending State Champion Texarkana Liberty-Eylau moved down to 3A for the 25-26 baseball years. But there are plenty of times ready to take that spot in 2025. And we will crown two 4A State Champions this year! Also, after playing their state tournament at Disch Falk for many years in Austin, 4A State Championship games will be held in Round Rock.

Region I

They play good baseball in Canyon and all 3 teams there (Canyon High, Randall, West Plains) were in the Top 25 for most of the season. **Canyon High (#8)** put it all together and made it to the State Tournament. With 6 starters coming back, they could make a repeat trip to Round Rock. They will likely be a Division 2 playoff participant. But there is a new kid in town in Region 1. The **Brock Eagles (#6)** move up from 3A after a narrow loss in the State Championship Game. They return 8 starters including their top 2 pitchers. Brock will be a Division 2 playoff participant. How good will **Ft. Worth Benbrook (#10)** be? They return all their players from last year and made it to the Regional Semifinals with those players. They will be in the Division 2 playoffs as well. **Seminole (#12)**, however, will be large school. With their top 2 players back from a Regional Semifinal run, they could be the favorite in the large school playoffs. Others to watch out for in Region I is **Canyon Randall, Canyon West Plains and Stephenville.**

Region II

While one state tournament team (Liberty-Eyalu) moves out of 4A Region II, another state tournament team comes in. **Longview Spring Hill (#2)** moves to Region II from Region III and takes the top spot in this region with 8 starters from last year's state tournament team. They will be a 4A Division 2 playoff team. **Texarkana Pleasant Grove (#3)** is right there with them with 9 starters back from their Regional Semifinal team. Pleasant Grove is in the middle of their district enrollment-wise and could go either division in the playoffs. **Lindale (#13)** and **Celina (#16)** are both preseason Top 20 teams with a chance for a trip to Round Rock. Both of these teams will play in the large school playoffs. **Carthage (#19)** moves down to Region II and they bring back a lot of good hitters and will be looking for pitching to make a big run in the playoffs. They will go the Division 2 route. Others to watch for in Region II are **Nevada Community and Van.**

Region III

China Spring (#4) hopes to make it back to the State Tournament after a State Championship in 2023 and just missing out in 2024. With 8 returning starters, it looks good for a return trip as the highest ranking Region III team in preseason. China Springs will go the big school route in the playoffs. **Huffman-Hargrave (#9)** brings back almost all their team from last year's 20-10 season. They too will be playing in the big school playoffs. **Salado (#14)** brings back 9 starters from their Regional Semifinalist team. Salado will be in the small school bracket and could be the leading RIII contender in that bracket. **Little Cypress-Mauriceville (#17)** brings back the house from an 18-11 team. They could go either route in the playoffs. Others teams to watch out for in Region III are **Burnet and Bridge City.**

Region IV

Callalen (#1) returns all their pitching from a runner up state championship team and will be one of the top teams in 4A. Deep playoff experience for 6 returning starters will be huge for them. They will play in the Division I bracket. District foe **Tuloso-Midway (#5)** will be one of Calallen's toughest challengers. T-M returns 9 starters and are hoping for a run to Round Rock. T-M will also be a Division I playoff participant. Sinton will be stout again after missing the state tournament for the first time in 3 years last year. 8 returning starters are motivated to get back to Round Rock. **Sinton (#7)**, however, will play in the Division 2 playoffs and are the favorites out of Region IV there. **Needville (#11)** looks to have another good run. They will be another Division 1 playoff team. **El Campo, Pleasanton and Floresville** are looking for more success and good runs in 2024. Floresville and El Campo will be Division 1 participants while Pleasanton will likely be a Division 2 playoff contender. Other teams to watch in Region IV are **Davenport and Geronimo Navarro.**

Interview

Wall went to the state tournament your sophomore year and then got knocked out in the 2nd round last year. What does it take to get to the state tournament?

It's getting hot at the right time. And everyone doing the right things at the right time as well. It's tough to get there. The year we went to state, we didn't have a single senior on the roster. Last year, we had everyone from the year before and lost in a one game series in the second round. We just got real cold at the end of the year, and that's just how it goes sometimes in baseball.

So what do you like about this year's Wall team?

Well, it's going to be real new. We will be replacing all of our infielders. All four of them were seniors last year. But we have some JV guys from last year that were really good. We had two guys that were at least in the mid 80s, like touching upper 80s on JV, which is unheard of around where I'm from, especially in 3A baseball. So it's going to be really nice having them up there and stepping up in big roles.

What is it about Wall that produces good teams and players year after year?

Yeah they've always been pretty good in the athletics, and in baseball we've had some really good players here. I think I have to say it starts in the youth. Ronnie Gaines runs the youth baseball programs, and that's always a big deal. When I was young, everyone wanted to play for Ronnie Gaines and play for West Texas Elite. I think the biggest thing now is the competition. There's a lot of spots on our team. Even if you're a starter last year, you may not have that spot secured for this year, because there's another guy stepping up that's gotten a lot better from the year before, because he wants that spot as well. So everyone's pushing each other. We all love each other, but we are pushing each other.

What do you think are the challenges for this year's team?

Definitely the new guys. I'm excited about what they bring but these guys don't have that varsity experience. They don't have that big game experience. I don't think it's going to be a big time challenge, but it definitely will be one.

Why Oklahoma?

Oh, man, I've always wanted to go there. People would ask me when I was younger, where I wanted to go. And they would ask if I was good enough to play at the Division I level. So, at first I would just say "I don't really know." But so as soon good things started happening for me and I started talking to them, I said 'All right, this is where I want to go. Oklahoma.' No doubt. I went to the camp there when I was in sixth grade, right after I was diagnosed with diabetes, and all those guys there made me feel like I was a part of the family. And so after going up again, there was no doubt in my mind. I was going to be a Sooner.

Heading into the 2024 season, we knew it was going to be a very strong year for 3A baseball. Most of the higher ranked teams from 2023 were returning a large number of starters, including the Franklin Lions. Franklin finished as bi-district finalists that year, but THSB had them ranked high (11) due to the sheer amount of talent on the roster. In fact, we had them ranked too low, as Franklin not only won an always-stout region III bracket, but took home the 3A state championship in an impressive fashion over what was a stronger than normal field of 3A opponents. Can the Lions repeat after winning their first-ever state championship, or will someone else rise to the top?

Region I

Brock has been a stronghold in this region for several years now, but we will have a new representative from region I in 2025 as the Eagles have moved on to class 4A. Preseason **#2 Wall** is our pick to get back to state. The Hawks had made the trip to Round Rock two years ago with a host of younger talent, including 3A Coverboy Gunnar Dillard, and we believe this group certainly has enough punch to make another run at it. **#9 Bushland** is about as consistent as they come in this region, and they are simply in the mix year in and year out. **#14 Shallowater** returns pretty much everyone from 28-win team, while **#17 Holliday** rounds out our top 20 rankings. **Clyde, Iowa Park, Jacksboro and Jim Ned** are all in our other team to watch.

Region II

It's hard to bet against a defending state champ that is returning a lot of talent from that team. It's even harder to bet against that team if they are dropping in classifications, and that is exactly what **#1 Texarkana Liberty-Eylau** is doing. LE is returning two all-state players in Triston Haugh and Brittain Pipes, so the talent is certainly there. **#5 Gunter** is a familiar name in the rankings, as they pretty much live inside of the top 10 yearly. **#8 Boyd** fell just short of their repeat run to state, falling to Gunter in the regional finals. **#20 Edgewood** is our final team in the preseason rankings, as Coach Seale always has his team competing for district championships. **Atlanta, Paradise, and Tatum** are all teams to watch.

Region III

#3 Franklin has some holes to fill in this year, but may have enough upcoming talent to stay on top in the region. The big losses come on the mound, where a large majority of the wins have graduated. **#7 Central Heights** is in a very difficult district this season, but if they prove to be the top dog out of 21-3A, they are going to be very dangerous in the postseason. **#11 Maypearl** has one of the most talented players in 3A returning in Oklahoma commit Cord Rager, while **#13 Troy** also has one of the best arms in the state in Joseph McMurtry. **#15 Huntington** and **#17 Diboll** are in the same district with Central Heights, making it 3 in one district in the top 20. **#19 Orangefield** makes it 7 teams (the most in any region) to be ranked inside our top 20. **Whitney** is included as a team to watch.

Region IV

It's going to be a very strong year for region IV in 2025. **#4 Bishop** held their own in 4A, and now makes the return to 3A with a very talented roster. **#6 London** has made it to state a whopping 4 straight years, so the battles between those two in district play are going to certainly be something to keep an eye on. **#10 Falfurrias** is moving out of the district with London, but has nearly everyone coming back from a regional finalist squad. **#12 Hallettsville** is in a similar boat, with 8 returning starters returning from a regional quarterfinalist team. **#16 Industrial**, also with 8 returning starters from a regional semifinalist finish, makes this region extremely loaded. **Goliad** and **Tidehaven** are teams to keep an eye on as the season progresses.

2A COVER PLAYER - TITAN TARGAC

Interview

You guys made it to the state tournament last year but lost in the state semifinals in one of the top games of the state tournament. Talk about that game.

Oh man it was an awesome game. It was just the competitiveness, the going back and forth, and then going into extra innings. I got that base hit in the bottom of the seventh to tie the game. Then they scored that one run in the top of the 8th. I knew we had a chance coming back but we couldn't execute it and get that run across. But overall, I loved the energy in that game. And I know people were talking about that game the next day at Dell Diamond.

When did you guys know you had a team that could make it to the state tournament?

Well, from the beginning of the season we had a lot of doubts, just because we had lost six starters that past year, and we had a lot of guys that had to step up. And that ended up happening. We had a lot of guys step up and learn how to play their part real good. And it was probably the middle and the end of district when I started seeing we'd be real good.

This year you guys bring back a good core group. So how are you feeling about the 2025 Flatonia team?

This year I'm going to have the same mindset as we had last year. Like just do our best, play our part, and then see how far we can make it.

Where will this team be really good this year?

I think we will be really good defense wise. We have been looking real good in practice, even some of our non starter guys looked real good in practice. And then with Coach Bruns and Coach Migl and Coach Mica, they do a lot of defensive reps. So I think that'll be our best area of the game.

What do you think might be the challenges for you guys this year?

Our challenge will definitely be Ganado. They will be real good again because I think they only lost one senior. They put up a good challenge with us last year so I think there'll be a really tough opponent. Shiner will be real good too. As long as we can hit the ball, we'll be pretty decent.

What's your favorite thing about this year's team?

I feel like we have a lot of guys from last year and we all jelled really good. So I feel like that'll carry over into this year and we'll all be together as one, almost like a family.

Why Texas State?

The coaching staff was amazing. I feel like I connected with them really well. And then I feel like that'll be the place for me to go and grow and get experience and get better. It just felt like it's the right place for me.

2A SEASON PREVIEW

As soon as the Top 20 is released, THSB will probably take some heat for the lack of 2024 State Tournament Teams in the Top 10. The primary factor is the lack of returning pitching from the teams that went to State and the return of pitching for teams that are in the Top 10. The most interesting thing about this season is all of this will change come playoff time as the split in big school/small school starts. If you are smart enough to figure all of that out prior to the start of the season, you are better than I. Let's look at each Region.

Region I

Ropesville will hold the #1 rank in the Region and in the State. This may be a stretch to some but once they watch the returning pitching staff, Ropes should gain some supporters. **Hawley (#5)** returns seven from their State Finalist team. District foe **Stamford (#11)** will challenge them in district and regionally. **New Home (#12)** is always in the mix and this year will be no different. District 4 will still be fun to watch with them and Ropesville battling to prove us right or wrong. The field starts to level out but don't discount relative newcomer to baseball Sudan or perennial powerhouse Albany. Wink returns their entire squad and will be poised to keep everyone honest come playoff time.

Region II

Last year we saw **Collinsville (#17)** at the top of the Region. This year, we will also see a District 11 team, **Tom Bean (#4)** coming out of the gate in top spot in the Region. The Tomcats return the entire squad. **Axtell (#7)** also returns their entire lineup. Both programs went to the Regional Semis last season. **Bosqueville (#14)** is no stranger to a top nod. District opponent **Crawford (#16)** will contend for a top regional spot. Other familiar names to watch for in the region include Windthorst, Cooper, Alvord, Valley Mills, Muenster and Rio Vista.

Region III

If pitching wins games, Region III may win the most games. There is a lot of good pitching in the region this year. **Harleton (#2)** gets another top nod in the Region. **Kerens (#8)** and **Garrison (#9)** round out the teams making the top 10. **Beckville (#13)**, **Frankston (#19)** and **Gary (#20)** are all teams capable of ending your season prematurely. Elysian Fields and Hemphill both drop from 3A to 2A. Both teams should benefit from the drop in classifications. Centerville, Groveton and Douglass are also teams that need some respect.

Region IV

Johnson City will start the season at #3. They bring back everyone from a team that went to the regional semi-finals. **Danbury (#6)** is another team that drops from 3A to 2A and should be a team to greatly benefit from the classification change. **Thorndale (#10)** rounds out the top 10 from the region. **Flatonía (#15)** and **Ganado (#18)** both from District 29, round out the Top 20. A few missing from the top 20 that could certainly be there in the end include Iola, Shiner, Mumford, Evadale and Kenedy.

Interview

How does it feel to be state champion?

It has always been the goal for the last two years. Then last year we realized we really had a shot to be that team and it really motivated us to push even harder. Then once we got there, it would mean it was a dream come true. Just to be there was great but once we knew we had the shot, we wanted to win it all.

What was it like for you being in the State Championship Game?

Honestly, I felt ready. Usually I am pretty nervous. But at the state tournament I was as ready as I was for any game.

When did you know your guys were really good?

I would say from our first tournament. Not a lot was expected of us from the beginning of the year. But we played well from the first time we stepped on the field together. Practice was rough but was once game time came, we came together.

What will it take to get back to the State Tournament in 2025?

We know we can't come in there big headed and everything because when you have that title on your back it is a lot of pressure and other teams know that and will want to play their best to beat us. We are going to try our best to defend that title and continue our streak of wins.

What do you like about this year's team?

We actually do have a lot of younger guys. Last year we were a heavy senior class. This year we're a lot younger and I feel like that's going to be good for us this year and years to come. We may not have as much experience but I feel like a lot of these kids have been playing here for awhile and the winning will just continue. We just need the chemistry to help us come together.

1A SEASON PREVIEW

1A baseball is full of highs and lows. Highs when a team returns a majority of its talent, lows in those rebuilding years. Consistent winning is tough at any level. Having sufficient players for consistency is even tougher at 1A. This year we are seeing some of that consistency shine through.

Region I

It has been a long time since we have seen a 1A team run the table and win it all. **Ira(#1)** was that team in 2024. They return top pitchers Jeran Pena and Raidon Hernandez as well as 1A State tournament MVP CJ Collier. This is enough to give them not only the top Region I place, but the top seed in the State. Add in 3 other returning starters and they have a recipe for 1A success. **Nazareth (#7)** also returns 6 players from their Regional Semi-Finalist team. **Hamlin (#9)** will round out the Region I teams in the 1A top 10 rankings. With 7 players returning, this promises to be a fun year for Hamlin. Other teams in the region to keep your eye on include Westbrook, Crosbyton, Kress and Cross Plains.

Region II

Region II traded Avalon for Sulphur Bluff due to re-districting. Several other teams moved around in the region which can always make playoff draws more interesting. **Abbott (#3)** is no stranger to top placings and this year will be no different. With the return of Riley Sustala and Conner Sullins, plus 6 other starters from their State Semi-Finalist team, Abbott is poised for a return trip to Round Rock. **Gordon (#5)** returns the entire squad that was eliminated by Abbott in the Regional Quarter-Finals. Newcomer to the Region, Sulphur Bluff should shake things up. The outliers in the Region that will be really fun to watch include Bryson, Saint Jo, Aquilla, Perrin Whitt, and Blum. Bryson is expect to win District 10 followed by Saint Jo. This leaves Perrin Whitt at home. Relatively new program, Aquilla returns the entire team. Blum is expected to win District 15 again, returns 5 players.

Region III

Region III continues to be a tough region to predict. One thing that is consistent with the predictions in this region is they rarely come true. Someone just seems to peak at during playoff time. **Chester (#4)** returns 7 players from a State Semi-Finalist team and will hold the top spot. **Union Hill (#6)** follows closing behind in the state rankings also returning 7 players from a team that reached the Regional Semi-Finals. **Brookeland (#8)**, led by Cash Morgan, also returns 7 starters. The questions start coming in to play with teams like Neches who reached Regional Finals and returns 6 starters. How will Avalon and its 7 returning starters factor into the Regional mix? Slocum (8 returning starters), Kennard (9 returning starters) and Oakwood (6 returning starters) are other teams to watch in the Region.

Region IV

If you were looking for a region to consistently pick the teams that will reach Regional Finals, look no further than Region IV. **Fayetteville** and **D'Hanis** are your teams to predict. It will be no different this year or will it? Fayetteville comes in at #2 this year. D'Hanis come is at #10. They only return 4 starters from their Regional Finals team but the program seems to re-tool every year. The two we are watching come out of District 28 and both teams have gained momentum each year – Medina and Menard. Medina returns 7 players from a Regional Quarter-Finalist team while Menard returns 6 from a team that also reach the Regional Quarter Finals.

Interview

What will be the challenges for Covenant Christian this year?

Definitely just the newer freshman coming in. We lost a lot of our pitchers, like six of them. We have a couple of pitchers, but that's our main loss from last year. I think we have a couple of freshman coming up that we will need. We need to be able to build off last year's team and just play our normal game. So I believe the challenge will be just staying consistent. And I feel like we have a good chance this year to make it to the state tournament.

What do you like about this year's team?

We're like family. Since we don't have too many kids at our school, everyone knows everyone so we're often together. So we're a pretty close family.

So you are a good hitter but you are also considered a good defensive shortstop. Do you favor one over the other? Offense or Defense?

Yes, I'm pretty good at defense. But I like hitting too. I love it all honestly. Being a good hitter and playing good defense.

What's it like being a player on the team with your dad as the Head Baseball Coach?

I like it. He doesn't coach me like I'm his kid. He has coached me like any other kid. I've grown up with him. He's been my coach on select teams and most of my teams. So it has been a privilege. He knows a lot. I learn a lot from him. So it's been a fun time.

PRIVATE SCHOOL SEASON PREVIEW

The 2025 season promises to be an exciting one. TAPPS realigned for 2024-2026, and the implications on baseball were dramatic. The SPC is into year two of its split between 3A and 4A. Home school programs continue to grow, as do the smaller private schools. What it means practically is that the THSB crystal ball might be a little cloudy this season as we adjust to the changes. Making it a bit more difficult is the fact that TAPPS has not yet released the 2025 baseball brackets, so there is some guesswork involved. SPC championships will be held this spring at John Cooper, Kinkaid, and Episcopal while the TAPPS State Tournament will return to UT Arlington. With all that in mind, it's time to preview the 2025 private school season.

TAPPS Division 1

TAPPS Division 1 grew by 6 schools, with four districts split north and south. **Liberty Christian (#5)** moves up and into immediate contention. Few teams can boast the talent level of **Prestonwood Christian (#1)**. Bishop Lynch (#7) has been knocking on the door. Will this be their year? **Central Catholic (#2)** defeated **Concordia Lutheran (#3)** in the state championship. Concordia looks to extend their state tournament appearance string to 10, a remarkable accomplishment.

Best bets for Arlington: Prestonwood Christian, Liberty Christian, Concordia Lutheran, Central Catholic

TAPPS Division 2

Defending state champion **Second Baptist (#4)** returns a core that will look to make another run to Arlington. **Lutheran South (#6)** is loaded with talent and is likely to make a deep playoff run. Defending Division 3 State Champion Brook Hill (#8) moves up to Division 2 and into immediate contention. **Grapevine Faith (#10)** moves into the always tough District 1 and becomes the favorite. **Kelly Catholic (#9)** is only a year removed from a state title and made the tournament last year. Other teams to watch include **Regents School (#17)**, **Bay Area Christian (#18)**, and **Cypress Christian**.

Best bets for Arlington: Second Baptist, Lutheran South, Kelly Catholic, Grapevine Faith

TAPPS Division 3

Of the four teams that made the Division 3 state tournament, only **McKinney Christian (#6)** remains in the division. Traditional powers **Northland Christian (#1)** and **Pasadena First Baptist (#2)** move up and should make the move up seamlessly. **Geneva School (#3)** made the 2023 tournament and looks to make it back to Arlington. **Brazos Christian (#4)** and **Colleyville Covenant (#5)** will also factor into the race. **Holy. Cross** is also a team to watch in the south.

Best bets for Arlington: Northland Christian, Pasadena First Baptist, McKinney Christian, Colleyville Covenant

TAPPS Division 4

Division 4 saw the biggest change in realignment. **Abilene Christian (#10)** moves up from Division 5 and will be a factor not only in district but in the playoffs. **Christian Life Prep** has made the state tournament two consecutive seasons and has a great shot at three trips to Arlington. **Central Texas Christian** has been a consistently good program, and they are ready to roll in 2025. **Alpha Omega** also looks strong in the south. **Conroe Covenant Christian** moves up from Division 4 and will be a factor in not only in district but the playoffs as well.

Best bets for Arlington: Abilene Christian, Alpha Omega, Christian Life Prep, Central Texas Christian

TAPPS Division 5

Division 5 is the largest division by number of schools and is also the most difficult to project for a variety of factors. One thing is certain, and that is District 5 will likely send a team to the state tournament. Defending state champion **Hallettsville Sacred Heart (#8)** is a regular, along with Shiner St. Paul. Bracken Christian has also been to the tournament recently and has a chance again in 2025. **Ovilla Christian (#7)** and **Prestonwood Christian North (#9)** have developed quite a rivalry, and their battle should be one to watch again this season. **Dallas 1st Baptist** will have a say in that as well.

Best bets for Arlington: Hallettsville Sacred Heart, Ovilla Christian, Prestonwood Christian North, Shiner St. Paul

Southwest Preparatory Conference

St. John's School (#15) broke through last season as the 4A champion, but the traditional powers **Episcopal (#11)** and **Kinkaid (#19)** appear loaded and ready to reclaim the title. **Houston Christian (#12)** also looks poised to make a run. **Trinity Valley** won the 3A championship in 2024, getting hot at the right time. **FW Country Day (#16)** may have what it takes to wear the crown in 2025. **Cistercian** was a surprise last season but won't be sneaking up on anyone this season. They will definitely be a factor in 3A.

Predicted 4A Champion: Episcopal
