ON THE COVER

By Tim Baugh

Welcome to the 10th issue of the **TEXAS HIGH SCHOOL BASEBALL MAGAZINE**. This magazine is a project of the Texas High School Baseball team and is a part of our effort to connect high school baseball coaches, players, parents and fans across the big state of Texas. Our aim is to enhance and heighten the high school experience of every high school baseball fan by unfolding the drama and excitement of each baseball season.

This year, we are converting to an online, digital magazine only. Rising publishing costs have made it difficult to continue publishing a printed magazine. We will spend this year looking at how we might cut costs down and bring the printed version back but we will also use this time to evaluate whether a digital magazine is the best option going forward.

In this digital magazine, we continue to strive to be a resource to help you follow along with the baseball season. With the information provided, you will have a grasp of what to expect from the 2023 season. Our Preseason Top 20 Polls and Preseason Players to Watch sections will give you an idea of who the top teams and top players might be this year. It also sets us up to be surprised by those teams and players who step up and have great seasons but flew under our radar in the off-season. All of this adds to the anticipation and excitement of the baseball season.

While this digital magazine serves as a preseason resource for the upcoming season, our Texas High School Baseball website (www.txhighschoolbaseball.com) follows and reports on the season as it is being played. Be sure to join us as we follow and report the story and excitement of the 2022 Texas High School Baseball season. – Tim Baugh

Tim Baugh is the owner of the Texas High School Baseball Website and the Texas High School Baseball Magazine. He will also be the 6A Coordinator for 2022. Tim lives in Midland where he is an Associate Minister at the Fairmont Park Church of Christ. His wife Dena is a Kindergarten teacher at Midland Greenwood. They have three children, Laura Anastasio, Eric Baugh and Breann Gwinn, all graduates of Midland Greenwood. They have five grandchildren, Austin 13, Holly, 12, twins Alli and Emi, 5 and Marshall, 1. Tim coached his son's Little League and Senior League baseball teams for 10 years and served on Little and Senior League Boards and was President of the Greenwood Baseball Booster Club in 2008. He created and ran the 3ABASEBALL.COM website from 2007-2012.

Brandon Brunson is in his 7th year as Private School Coordinator. He works for Aris Water as a Procurement Specialist. His wife, DeEtte, teaches JH/HS Bible, English, and Financial Planning at Midland Christian School. The Brunsons have three sons-Brett, Bryan and Blaine (all were athletes at Midland Christian School) and one grandson, Barrett. A former coach (six-man football and boys' basketball), he now spends time behind the microphone as a broadcaster. Brandon has broadcast the state tournament for TAPPS TV and Radio since 2019. His other broadcast duties include Midland Christian (football, basketball, baseball) and Midland College (baseball). He also serves as an elder at the Golf Course Road Church of Christ.

Josh Pratt is the 4A/5A Coordinator for THSB. Josh resides in Cameron, and is a 2013 graduate of the University of Mary Hardin-Baylor. Josh works full time as a banker and real estate investor, but was previously the sports editor for his hometown paper from 2015 until 2018. He also covered high school football with TheOldCoach.com from 2012 until 2017. In addition to his love for baseball, Josh enjoys football, basketball, and tennis. In his down time, Josh enjoys shooting sporting events and creating graphics. Josh is a lifelong member of Sts. Cyril and Methodius Catholic Church in Marak, where he serves on the finance council. This is Josh's 11th year with THSB.

Allen Lambright enters his 9th year as the 1A/2A Coordinator. He lives in Trenton and is the Texas Single Family Housing Program Director for USDA Rural Development. His wife, Tonya, is a teacher at Celeste Middle School. They have 3 children. Cody is the Assistant Baseball Coach at Forney High School. Justin is a senior at Austin College where he pitches for the 'Roos. His daughter, Kylie is in 8th grade and enjoys raising chickens and playing basketball and volleyball. He retired as Lieutenant Colonel from the Texas Air National Guard in 2016; having served his country for 27 years. Allen spends his spare time chasing his children and grandchildren from event to event. He has coached everything from t-ball to Trenton Summer and Fall High School teams. His hobbies are sports photography and raising show chickens with his daughter.

6A SEASON PREVIEW

Southlake Carroll has been the dominant team in 6A recently having won 3 of the last 4 6A Baseball State Championships. The Dragons would like to see another back-to-back seasons with State Championships but there are many other 6A teams in 2023 who are looking towards the state championship prize in Round Rock.

Region I

#4 Southlake Carroll may be the cream of the crop in Region I even though they only return 3 starters. Carroll teams have been so good lately though that they usually have talented kids waiting for they turn to step and carry on the strong baseball tradition. **#5 Hebron** could be the surprise team of the region. Finishing only 4th in 6-6A last year, the Hawks return 10 starters and a couple of highly rated transfers. **#10 Flower Mound Marcus** will once again be in the thick of things. And watch out for **#11 Denton Guyer** and **#13 Flower Mound** as they both have some talented players returning, particularly on the mound. **#20 Keller** produces good teams year in and year out. **El Paso Americas, Frenship and Prosper** are teams with the kind of talent that could surprise some of the higher ranked teams.

Region II

#17 Rockwall-Heath has made the trip to Round Rock the last two years out of Region II, winning it all in 2021. They return 6 starters who will give them a chance to make it three in a row. But **#9 The Woodlands** looks to be pretty strong in 2023 with 6 returning starters, including a two-time District MVP and a deep pitching staff. **#12 Cy Woods** returns 8 starters with some talented players who could propel them to the state tournament. **#14 Oak Ridge, #16 Rockwall and #18 Grand Oaks**, are other teams to keep on the radar. Grand Oaks has put together a high caliber team in only its 5th year of varsity competition.

Region III

With 9 starters back from a State Semi-Finalist team, who could keep **#6 Ft. Bend Ridge Point** from making their 3rd appearance in the 6A State Tournament in the last 4 years? It could be 6A Preseason **#1 Pearland**. Pearland returns 8 starters from a 32-win team that made a great run in the playoffs, including last year's District MVP. They have offense, a deep pitching staff and plenty of experience. **#19 Katy Tompkins** will once again be solid with 7 starters from their 28-win team. **Katy High and Kingwood** also have great potential to be very good teams in 2023.

Region IV

Region IV is loaded with good teams. **#3 San Antonio Reagan** lost in the 6A State Finals in 2022. They return 5 starters who will help them try to return to Round Rock for the 5th time in the last 9 years. But **#2 Austin Westlake** may be the team to beat in 2023. They return 10 starters from a 27-win team. As usual, **#7 Lake Travis** will be in the middle of things, this time with a new coach. **#8 San Antonio Johnson** has a great pitching staff that could propel them to the State Tournament. **#15 Eagle Pass** will be a team to watch with all starters but one returning from their Regional Semifinalist team. **PSJA, San Antonio O'Connor, San Antonio Harlan, San Marcos and Vista Ridge** all have teams that could surprise some people in the upcoming baseball season.

5A SEASON PREVIEW

It was evident during the early part of the season that Georgetown was going to be a major player for a state championship, downing traditional 6A powers Smithson Valley and Prosper. The Eagles eventually claimed the number one seed out of an always-tough 25-5A and from that point lost just 1 more game en route to a state championship. Georgetown took heavy hits to graduation and has now moved over to a very deep region III, so time will tell if the Eagles can reload or if someone else will step up to win the state title in 2023.

Region I

For years, **Argyle (3)** has been one of the premier athletic programs in the entire state. The Eagles have won a record-breaking 10 Lone Star Cup Championships in a row and have a few state baseball titles during their time in 4A. Argyle has seen growth in enrollment and has now made the jump up to 5A, but with 8 starters returning from a 35-4 state semifinalist group, another trip to state could be on the horizon. **Abilene Wylie (7)** may be the top contender for Argyle in the region, with 6 starters returning from a solid regional semifinalist team. From there, **Burleson Centennial (15)**, **Burleson (17)** **Birdville (20)** are all preseason top 20 teams that add quality depth to the region.

Region II

Ranking teams in region II last season was an extremely difficult task as the parity was so great across the board. At the end of the day, a traditional power in **Frisco Wakeland (5)** made it out of the region and to the state tournament in Round Rock. Wakeland loses over half of their starting lineup, but as of now, we still feel they are the favorites to repeat with the preseason #5 ranking. A team like **Lucas Lovejoy (8)** may have the most actual talent across the board on their roster, headlined by Aidan Smith (Mississippi State) and Kyle Branch (Oklahoma). **Frisco Lone Star (12)** actually returns more than Wakeland, so if they can win that district, we know they will be capable of an extended playoff run. **Hallsville (13)** is the last region II team in the top 20 and is typically always a threat with an always-talented roster.

Region III

Friendswood (1) was the THSB preseason number one team in 2022, and we're going to roll with the Mustangs again here in 2023. Friendswood made a run all the way to the state championship game last season and returns 6 starters to the fold. Easton Tumis (Texas) and Boots Landry (Texas A&M) are both top 10 players to watch in 5A. Region III has incredible depth this year as **Lake Creek (4)** is returning 9 starters from a regional finalist group that won 28 games. Make sure to keep a very close eye on **Richmond Foster (10)** this season. The Falcons were area finalist a year ago and are going to have one of the more talented rosters in the state. **Crosby (18)** returns two really impressive arms, while **Georgetown (19)** is the defending state champions until someone knocks them out.

Region IV

There is no question region IV was the deepest in the state last season, and even though there has been some shifting of teams, we expect this to be another gauntlet once the postseason gets underway. **Smithson Valley (2)** was one of the better 6A teams in the state last season, finishing 13th in the state. With 7 starters returning and a drop in classification, the potential to be a state title contender is certainly there. **Corpus Christi Ray (6)** won one of the tougher districts in the state last season and is the preseason favorite again this year, which generally always garners a top 10 ranking. **Leander Rouse (9)** lost in the first round last year, but returns nearly everyone and will be looking to make a return trip back to state. **Weslaco East (11)** is the Valley's top ranked team in 2023, but **Sharyland Pioneer (14)** is not far behind. **New Braunfels Canyon (16)** rounds out the ranking of region IV teams, with 7 returning starters from a regional quarterfinalist team that took eventual state champion Georgetown to 3 games.

4A SEASON PREVIEW

Despite not being the largest classification in the state, 4A tends to produce some of the top tier teams when it's all said and done. College Station in 2014, Argyle in 2019 and Sinton in 2022 are all teams that finished within the top 25 of national rankings, despite being the third largest classification in Texas. Sinton was dominant in 2022, posting impressive wins over larger top tier programs in non-district play, while dominating their way to a state title, outsourcing opponents 102 to 11 in their state title run. Do the Pirates return enough pieces to make another run to Austin and win another title? We believe so.

Region I

The landscape of region I has changed drastically from what we saw the past two years. Argyle represented region I last season and returns 8 starters from that group, but they are now in the 5A classification. That opens the door for a team such as **Canyon Randall (3)**, which is dropping down from 5A after an impressive 3-round run a season ago. Randall returns most of their roster and is our favorite to get to Austin come June. From that point, it really could be a group of about four to five teams that battle Randall for the top spot. **Stephenville (13)** was at state just two years ago and returns five starters from a regional finalist finish. Randall's cross-town rival **Canyon (14)** is also returning five from a four-round deep effort. Teams such as Andrews and Snyder are just outside the top 20 looking in.

Region II

If there is a team that we feel can certainly compete with Sinton if they were to meet up in Austin, it's **Celina (2)**. The Bobcats have an extremely talented roster from top to bottom, and just like Sinton, they have two players featured on our top 10 players to watch in 4A. The Bobcats did fall to Sinton (9-0) in Austin, but return more than anyone that was there. Celina must pay close attention to **Pleasant Grove (10)**, as the Hawks are the top overall program in 4A. Despite the surprising bi-district finish last season, that program has won 3 state championships since 2010 and is a perennial threat. **Godley (19)** and **Kennedale (20)** are in the same district and return a good nucleus from last year's squads.

Region III

We felt this region was fairly strong in 2022, and it's getting a boost in 2023. **Carthage (3)** looked good throughout their run all the way to the regional finals and returns all 9 starters. Texas A&M commit Noah Paddie, a top 10 4A player to watch, will lead a Bulldog group that will be looking to take that next step and get to the state tournament. **China Spring (7)** is the defending regional champs and will certainly be in the mix again this season. Teams such as **Bullard (8)** and **Spring Hill (9)** are both moving over from region II and will make this region just that much stronger. **Lufkin Hudson (17)** is another East Texas power that always seems to be ranked somewhere in the top 20.

Region IV

This region was the deepest in the state a year ago, and we don't see that changing much here in 2023, despite the strong additions to region III. **Sinton (1)** is the defending state champions and could be a highly ranked team in preseason national polls. The Pirates will be led by Blake Mitchell, the number one prospect in the state of Texas. The Pirates have plenty of other strong talent, including Jaquae Stewart, who won TXSWA Co-Player of the Year honors alongside Mitchell. **Boerne (5)** was not too far behind and returns a good portion of their roster, while **Tuloso-Midway (6)** is expected to be top competition to Sinton in the Corpus Christi area. **El Campo (11)** is moving over from region III and is returning 9 starters from a regional quarterfinalist group. **Calallen (12)** only returns two starters, but is a traditional power you can never sleep on. **Davenport (15)**, **Canyon Lake (16)**, and **Alice (19)** make it a total of 7 teams out of the region ranked inside of our preseason top 20 rankings.

3A SEASON PREVIEW

The 3A State Tournament has had two wild State Championship games in a row. Malakoff won the State Championship in 2021 by scoring 4 runs in the bottom of the 7th, winning 8-7 on a walk-off HBP over Corpus Christi London. Corpus Christi London turned it around in 2022 winning the State Tournament Championship in a 16-13 slugfest over Brock that saw 29 Runs, 24 Hits, 9 Extra Base Hits and 13 Walks. What will 2023 have in store for 3A?

Region I

#5 Brock looks poised for another run to Round Rock. They return 6 starters with some very good players. After finishing state champion runner up in both football and baseball in 2022, the Eagles would love to get a state championship in 2023. **#9 Holliday** could also make that trip returning some very good players from last year's 30-6 team. **#13 Wall**, the 2019 3A State Champion, is still young but many of their starters return from last year's 27-8 team. **#14 Bushland** and **#15 Shallowater** are two panhandle teams that should have a good run in the playoffs. **#18 Blanco** moves to Region 1 after a run to the State Tournament in 2021 from Region IV. **Bowie, Iowa Park** and **Jim Ned** are other teams with a core of good players who could fare well out of Region I.

Region II

#3 Gunter looks to make a return to the State Tournament out of Region II with some solid returners coming back from last year's 36-2 team. But they will have some fierce competition in Region II to overcome. District rival **#6 Pottsboro** was knocked out by Gunter in the Region II Finals and they would love the opportunity for a rematch. **#9 Harmony** made a deep run last year and return some key experienced and talented juniors to help them to do the same this year. **#12 Boyd** returns almost everyone from last year's 23-6-2 team and they hope the experience will help them go further in 2023. **#16 White Oak** and **#20 Hooks** are good teams in Region II that could go further than early expectations. Keep an eye on **Edgewood, West Rusk** and **Whitesboro** as well.

Region III

As usual, Region III is deep in talented teams. **#2 Franklin** got all the way to the Regional Finals in 2022 before being ousted by **Diboll**. 7 starters return from that team that hope to get them to the next step. **#4 Central Heights** lost to Franklin in the Region Semifinals in a tight matchup last year but they return most of their team and hope to be able to overcome that hurdle this year. **#7 Grandview** will be a tough team to beat. As will 19-3A foes **#10 Little River Academy** and **#11 Cameron Yoe**. 19-3A will likely be the toughest district in 3A and will help all teams in their playoff runs. **#17 Lorena** is also a part of that district and could surprise everyone. **#19 Diboll** made it to Round Rock in 2022. They lost a lot of their lineup but they did get a taste of the state tournament and will be hungry. **#20 Hooks, Anderson-Shiro, Orangefield**, and **Troy** are other teams to watch in this region.

Region IV

Preseason **#1 Corpus Christi London** lost a couple of big players but return 8 starters from last year's 3A state championship team. They have experience. Many of their players have been part of the state championship games the last two years. Most of CC London's competition in Region IV will come from their own district. **Santa Gertrudis** returns 8 starters and will look to improve on the Regional Quarterfinalist run. **Banquete** also returns 7 starters and hope their experience will propel them to another good run in the playoffs. Other teams to watch in this region include **Tidehaven, Columbus, Marion** and 4A dropdown **Hondo**.

For 2 years running, I am batting .500 on my predictions on who makes it to the State Tournament. I am not convinced I will be that successful in 2023. Why? The Regions are evenly matched and each have some sleeper teams that could throw a kink in everyones predictions. One thing I am sure of – this senior class is one of the more talented pitching classes in several years. With the likes of Hamilton’s Chase Weaver, Shiner’s duo of Ryan Peterson and Drew Wenske, Douglass’s Payton Bragg, Bosqueville’s duo of John Youens and Hunter Henexson, Nick Miller (Anson), Walker London (Frankston), Brady Henke (Weimar), Justin Manning (Axtell), Julian Frazier of Hawkins, Julian Frazier (Hawkins) and Gredan Wolf (Muenster), it is possible we could see several 90 plus arms in Round Rock this year. Remember what I said last year about small school baseball getting better each year? This year is no different.

Let’s look at how each Region stacks up:

Region I

New Home (#4) comes out of the gate with the highest ranking in the region. They return 7 starters from their State Semi-Finalist Team that I am sure still feels the sting of outhitting eventual State Champions Valley Mills but losing in the State Semi-finalis. Right behind them is **Albany (#7)** who feels a similar sting of losing to New Home in the Regional Finals. Albany will return 7 starters too. The stage is set for another clash. But don’t discount **Hamilton (#11)** who returns 7 starters of their own. Possibly one of the most interesting teams to watch out for could be **Reagan County (#14)**. With 8 returning starters from a team that made the playoffs in 3A, time will tell to see how the drop to 2A treats them. **Clarendon (#19)** rounds out the Region I top 20. **Coleman** and **Gruver** are two more teams to watch. Coleman seems to get a little better each year and Gruver is always in the hunt.

Region II

To say 2022 didn’t turn out as planned, is appropriate again for **Bosqueville (#2)** in 2022 as eventual State Champion **Valley Mills (#3)** sent them home in the Regional Finals. Bosqueville will return 6 starters from their team while Valley Mills will return seven. Why the flip in rankings? Pitching. That’s it. Pitching. I will either be right or wrong. **Collinsville (#8)** returns 8 starters from a Regional Semifinalist team and could be a team that through a kink in the Region as could **#12 Muenster**. I suspect Muenster fans believe my poll is as wacky as the Valley Mills fans do. I’ll take the heat. It makes for good conversation. **Tolar (#13)** returned the entire Regional Quarterfinalist squad that was sent home by Bosqueville in round 3. Look for this matchup again in 2023. **Axtell, Cooper, Rio Vista** and **Windthorst** round out the Region II teams in the Top 30. We could likely see a State Champion out of Region II this year as this will be the toughest region to be in to punch your ticket to Round Rock. That experience could pay big dividends.

Region III

Over the past two years, we have seen **Garrison** near the top. 2023 will not even feature them in the Top 30. Don’t let that fool you though. Region III will be interesting to watch, and they can definitely factor in to the equation. The top contender this year is not new to success in the Region. **Douglass (#5)** has some depth as well as playoff experience that should translate to success. The question might be where the face **Kerens (#7)** and **Joaquin (#10)** who both return everyone. Both come out of tough districts so playoff seeding could come into play to determine how deep of a run they can make. We must drop to 17th and 18th before we see the next two Region III teams in **Frankston** and **Rivercrest**. It was Rivercrest that eliminated Kerens in the Area Round last year. Frankston returns the entire team; many of them started for 4 years. **Beckville, Centerville, and Lovelady** are three more teams we can count on to make the region interesting.

Region IV

Could this be the year we see a **Shiner (#1)** dogpile in Round Rock? The poll says yes. They certainly have the experience for a return trip. District foe **Flatonia (#9)** is the closest Region IV team in the poll. I might be willing to drive to a neutral location to see a Peterson-Targac one game Regional Finals. But there is a lot of baseball to be played before that possibility arises in late May. The seven returning starters of **Mumford (#15)** stand in the way. **Johnson City (#16)** and **Mason (#20)** both return 6 starters from their regional quarterfinalist teams too. The only other team we currently have in the Top 30 is **Kenedy**. This isn’t the toughest Region IV lineup that we have seen in the last few years, but there are plenty of solid teams and some good pitching that will certainly make coaches nervous during a coin flip for the series. I do believe we will see a District 29 team in Round Rock.

We did not see a repeat of state champions in 2022. Will it happen in 2023? The polls say yes but we all know the challenge of getting back to the State Tournament. It is even harder to repeat. Our top 4 1A teams have 28 players with Round Rock experience. We are predicting the same four teams to return to Round Rock in 2023. Who stands in their way?

Region I

Region I is no stranger to good 1A baseball, and this year will be no different. **Nazareth (#2)** holds the top spot in the Region. They return 8 starters. **Ira (#8)** is their closest opponent in the polls. Will we see another son versus dad matchup in the Regional Finals. **Westbrook (#10)** is up next. They return 8 starters from a 10-3 regional semifinalist team. Rounding out the Top 15 members is **Cross Plains**. Although we don't expect them to make a splash this year, Jayton enters 1A district play this year as does **Texas Leadership (Abilene)**. Welcome to District 3 and 8 respectively.

Region II

Abbott (#3) was one of the few easy picks for 2023. Eight starters return from a 21-4-2. I think its fair to say, all 8 know they were a better team than their 2022 State Semi-finalist performance indicated and they intend to prove it this year. They will still have to get through **Dodd City (#7)** that once again returns a lot of talent from their Regional Finalist team. They have 6 multi-year starters returning. **Ector** and **Graford** are two teams that hold top 15 spots that could upend others plans for Round Rock. Region II welcomes **Harrold** (District 9), **Aquilla** (District 14) and **Oglesby** (District 14) to UIL play.

Region III

Can **Kennard (#4)** make it back to Round Rock for the 3rd year in a row? The previous Round Rock experience certainly factored into the top regional ranking. The interesting piece will be how **Brookeland (#6)** factors into the scenario. Brookeland returns 7 starters that won 15 games in 2A. A drop in classification has never hurt a team however a drop to 1A for a team that made the 2A playoffs is interested. **Union Hill (#9)** has a lot of grit and seems to find ways to win. They return 7 starters from a Regional Finalist team. Don't let their 12-19 record fool you. They compete well come playoff time. **Sulphur Bluff** rounds out the Region III Top 15 representatives.

Region IV

When is 6 greater than 9? When you are the returning State Champions. **D'Hanis (#1)** has 6 returning starters versus **Fayetteville (#5)** and their 9 returning starters. Both teams have rings in the last 2 years. Both are capable of winning another one in 2023. Expect a rematch in the 2023 Regional Finalist. The only other Region IV Top 15 team is **Benavides**. This is definitely not a reflection on the quality of 1A baseball in the region (see my previous comment on the past 2 State Champions). It is primarily driven by the fact that Region IV has the least amount of teams. There is definitely quality over quantity.

PRIVATE SCHOOL SEASON PREVIEW

The 2022 season was one to remember. TAPPS saw three repeat champions: Bay Area Christian in Division 3, Midland Classical in Division 4, and Weatherford Christian in Division 5 who won their third title in four years. Kinkaid returned to the top of the SPC, and Cornerstone Christian won the TCAF Division 1 crown. TAPPS realigned after the 2022 season, and the SPC made the move to 4A and 3A in an effort to combine schools of similar size. With those changes, the crystal ball for 2023 has not yet come into clear focus. Nevertheless, here we go...

TAPPS D1

This division was affected as much as any by realignment. There are only two districts now, one in the north and one in the south. With only 11 teams in the division, every team will be in the post-season bracket which should make for an exciting playoff season. Defending State Champion and #1 ranked Prestonwood Christian is the heavy favorite to defend their district and state titles. #4 Plano John Paul II will be a factor in the district race, along with TCA and Bishop Lynch. In District 2, #3 Concordia looks to book their third consecutive trip to the state tournament with a loaded roster. Central Catholic lost a strong senior class, but they return talent and the experience of having made the state tournament in 2022. St. Pius X is also a talented squad who should be in the mix for a district crown. **State Tournament Predictions: Prestonwood Christian, TCA, Plano John Paul II, Concordia**

TAPPS D2

This division also got a complete makeover due to realignment as several Division 1 teams dropped down. The power is still concentrated in District 1 and District 5. #2 Second Baptist returns a talented and experienced roster, and are heavy favorites to win a second consecutive state championship. They will be challenged by perennial state powerhouse Lutheran South and by The Woodlands Christian. Fort Bend Christian is usually in the mix, and watch out for an improving Kelly Catholic team. In the north, Liberty Christian looks to benefit from the move down after winning their district in Division 1 last season. Southwest Christian has the firepower to take the crown as well. FW Christian graduated a strong senior class, but expect them to be a factor in the district race, along with All Saints. **State Tournament Predictions: Liberty Christian, Southwest Christian, Lutheran South, Second Baptist**

TAPPS D3

Some traditional Division 2 powers have dropped down to Division 3, making this one very competitive in 2023. Lubbock Trinity has developed into a powerhouse program, making consecutive trips to the state tournament. Is this the Lions year to order rings? District foe and state finalist Lake Country Christian returns a powerful lineup and will definitely be a factor in the district race and in the playoffs. Dallas Christian drops to Division 3 and should be an immediate factor. Brook Hill graduated experience and talent, but their experience making the state tournament in 2022 will carry some weight. Brentwood Christian also lost heavy to graduation, but the drop to Division 3 should cushion that blow a little. Geneva School looks to be the best in their district, but the playoff path gets rocky in a hurry. District 5 is the home of defending State Champion Bay Area Christian. BACS graduated a great senior class, but should still be a factor. Cypress Christian looks to get over the hump in 2023 to make the state tournament. **State Tournament Predictions: Lubbock Trinity, Lake Country Christian, Cypress Christian, Bay Area Christian**

TAPPS D4

Midland Classical Academy won the past two Division 4 state titles. The Knights moved up to Division 3, so we are assured of a new champion in this division. Moving up to Division 4 are the Weatherford Christian Lions with three state championships in four years (COVID canceled the other year). While they lost a strong senior class, the winning culture remains. Temple Christian, a state tournament participant in 2022, returns a talented and experienced roster and should make noise in the district and the division. Long time TAPPS power Lubbock Christian drops to Division 4, and should make an immediate impact. Covenant Classical is also looking to book a return trip to the state tournament. Brazos Christian looks to be the best team in District 3 and will be a factor in the postseason. In District 5, Northland Christian is fresh off a state tournament appearance in Division 3 and are the favorites to win the district and return to the final four. **State Tournament Predictions: Temple Christian, Lubbock Christian, Brazos Christian, Northland Christian**

TAPPS D5

Division 5 welcomes several new schools, and it remains to be seen how many of those will actually field a team in 2023. The division does have familiar faces who will be tough to beat. In the north, Ovilla Christian is loaded for the 2023 season and will be the team to beat. First Baptist is always in the mix as well. The wildcard is Christian Life Prep, TCAF Division 2 State Champions, who are new to TAPPS. In the south, Bracken Christian and St. Paul will again battle for supremacy in the new District 6. St. Joseph should factor in to the district race, and watch out for an improving Allen Academy program. **State Tournament Predictions: Harvest Christian, Ovilla Christian, Bracken Christian, St. Paul**

SPC

As mentioned earlier, the SPC has divided into 4A and 3A as opposed to North and South in an effort to match schools of similar size. In 4A, look for heavyweights Kinkaid and Episcopal to battle it out again for the crown. Houston Christian should be a factor in the race as well. St. John's and the John Cooper School are also dangerous. In 3A, the FW Country Day Falcons have a strong senior class and look to be the favorite. Trinity Valley School and Oakridge look to finish in the top three. **Predictions: 4A: Episcopal 3A: FW Country Day**
